Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist) The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M.'s Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Cholorodyne except in sealed bottles, having the words, "Dr J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d and 4s 6d. ju24 1yw

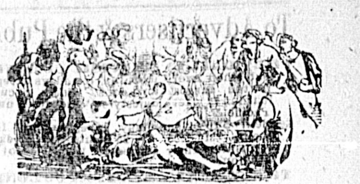
The Infallible Remedy.



Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humours,—Scald Head and Skin Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Gravel

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brought about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing it. this unguent. Mothers should rub it into the chest of their infants whenever there is any hoarseness, tightness, or other affection of breathing.

Bad Legs, Bad Breasts.—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases:

Bad Legs
Bad Breasts
Burns
Bunions
Bite of Mosquitoes and Sand-Flies
Coco-bay
Chiego-foot
Chilblains
Chapped Hands
Corns (Soft)
Cancers
Contracted and Stiff Joints
Elephantiasis
Fistulas
Gout
Glandular Swellings
Lumbago
Piles
Rheumatism
Scalds
Sore Nipples
Sore-throats
Skin-diseases
Scurvy
Sore-heads
Tumours
Ulcers
Wounds

A TRIANGULAR GAME.

One of the most extraordinary games that have ever probably engrossed the attention of diplomates, is at present being played by the three great powers of the world—England, France and America. With all the strides civilization and Christianity have made, we verily believe that neither of the three nations we have just mentioned would feel the poignancy of profound grief were the other two madly clutched in internecine strife. Diplomacy has only one object in view, and that is success. If the road should be swampy with human blood it matters not—the goal must be reached. France wants to retain a firm hold of Mexico, beyond the risk of future failure, and consequently desires that England and America should have a tussle. There is a double object in prospective for Napoleon. War between England and the United States would give Maximilian almost an indefinite lease of power; for come the issue of the contest how it might, both nations would be crippled for many years, and France could almost dictate her terms on the two continents of Europe and America. If, on the other hand, France and America were engaged in war over the Monroe doctrine, England would escape all disagreeable claims and pretences put forward by the Washington authorities in reference to her action during the recent war, and the Fenian disturbances would at once disappear. This is not all, however; the carrying trade of the world would be done in British vessels, and the power of England for good or ill would be almost quadrupled. When the London *Times* tells Louis Napoleon he cannot back down from his position in Mexico without swallowing his own words, and when it informs President Johnson that the Monroe doctrine is purely bunkum so long as France forces her Imperial institutions on the American continent, we are led to conclude that the diplomacy of London would not make very active exertions to stay hostilities on the Rio Grande. The position of America, on the other hand, would make a violent rupture in the *entente cordiale* between France and England a highly desirable consummation. With Louis Napoleon in war in Europe, Maximilian's empire would fall by its own weight, and the American Republican would be allowed to recuperate and retrench at leisure. The Alabama's damages would have to be paid by England to save a double war on Great Britain's hands, complicated still more by a Fenian invasion, and, lastly, the American shipping trade, which has suffered sadly by the rebellion, would obtain an impetus that would shortly place it in a flourishing condition. We cannot say that the commercial and manufacturing industries of any of the three powers would escape serious injury by war between the other two, but diplomacy has an interest that is sometimes apart from material progress, and it is generally able to precipitate a crisis before the peaceful interests are able to take the proper steps for the preservation of their industries. At all events, we have a triangular game between the three great powers, that may turn out to be as serious as it is interesting. A few years ago the United States would have had but a small chance in diplomatic fencing with European nations, but things are now much changed. The war which has uprooted slavery in America has produced a much more aggressive and revolutionary power in the desire for the extension of Republican principles. While North and South were clutched in deadly embrace most of the monarchies of Europe, the Americans will obstinately have it, were gladly hailing the contest as a death-blow to democracy. Some they say covertly, others openly aided the foes of American federation—not from any love they had for the parties in rebellion or for rebellion itself—for of all things dreaded by hereditary power is the principle of revolt—but from an inward desire to stay the progress of popular government. The war is now over—the Republic has emerged more concentrated, more powerful, and consequently more than ever respected by European nations. Not, however, as the Republic of old does she reappear on the national stage. The empty bravado, the awkward diplomacy, the brusque and simple manners of a progressive but non-traditional government, have disappeared, and we now find in their stead the mysterious reticence, the diplomatic craft, and the dignified bearing of the older and more cunning organizations of Europe. We see a beginning of Republican intrigue—a playing off of Yankee ingenuity against European wile. The day of passive democracy has gone, and Republicanism has become for almost the first time diplomatically aggressive. The menacing aspect of General Sheridan on the Rio Grande, and the Fenian disturbances in Ireland, are without doubt the offspring of the one policy, and are the levers by which Secretary Seward hopes to prevent anything like joint action on the part of France and England in American affairs. If France attempts to co-operate with England in resisting American demands, the Mexican war is resuscitated with a tenfold vigor. If England attempts to lend aid to France in the Mexican affair, there are the Fenians. On the other hand, the United States are still far from being reconstructed. The old hates and dislikes are still peeping out, and it would require but a small firebrand, thanks to the too compromising spirit of President Johnson, to be thrown by England or France into the Republic to start the conflagration anew. Never were three nations in more precarious relations with each other, and never was there a time when soundness of judgment and enlarged ideas of the duties of Government were more required in their respective rulers than now.

FRENCH and SPANISH.

MONS. DEFFIS, GRADUATE OF THE Academie de Paris, Professor of Languages, intends giving lessons in French and Spanish, at Victoria, V. I., during the winter season. Mons Deffis has had a good deal of experience in teaching; his mode of tuition being easy and effective, will be found to give satisfaction. Having lived in various parts of Mexico, including the Metropolis, Mazatlan, &c., and being more especially a Professor of the Spanish Language, he is enabled to instruct in a very short time persons intending to proceed to Mexico, in the Spanish language, by which they will be enabled to speak it fluently.

TO THE ELECTORS OF ESQUIMALT AND METCHOSIN DISTRICTS.

GENTLEMEN:—

Encouraged by the promised support of many of your number, I come forward to offer myself as a candidate for the honorable position of being one of your representatives in the House of Assembly.

Having already had the pleasure of laying before you individually my views in relation to the principal political topics of the day, it will be unnecessary to enlarge upon them to any length in this address; but I beg to submit the following synopsis of the course which, in my humble opinion, should be pursued as best calculated to promote the welfare of the colony at large;

The Union of the two colonies I hold to be absolutely indispensable to the advancement of both, and every exertion should be used to accomplish that end as speedily as possible.

The raising of a portion of the revenue by import duties, I have always advocated, not only as the fairest method whereby the burden of taxation may be shared by all classes, but as affording assistance and encouragement to the agricultural and other productive interests of the colony, upon the growth of which the well being of every country must mainly depend.

As, however, the question of Union is at the present time under the consideration of the Home Government, I should not advocate any material change in the present system of taxation until union shall have taken place.

A tax upon unoccupied and uncultivated lands held for speculation, would receive my support, as well as an act to assist the settlers in the extermination of wild animals.

Retrenchment in the expenditure of our Government is greatly needed, it being at present far beyond the requirements or the means of our population.

The abolition of the Imprisonment for Debt and the passing of a Homestead Law I should use my earnest endeavors to obtain.

The establishment of a School in the district of Metchosin and the opening up of a new road to Cowichan are points of local interest which it would be my duty to further by all the means in my power.

I am of opinion that the Statute Labor Act should be materially reformed, as in its present state it works most unequally and unfairly.

I fully endorse the action taken by the House of Assembly during last session with respect to the Crown Lands and shall use my best endeavors to obtain for the people the cession of those lands or their equivalent.

For two or three years past I have made it my particular study to arrive at a knowledge of the resources and requirements of each settlement in the colony and am more than ever convinced that it will be the true policy of our Legislature to foster and encourage the agricultural interest, thereby lessening the evil of the suicidal policy at present pursued of buying almost all the necessaries of life from another country with whom we have no reciprocity of trade.

As your representative I should deem it to be my duty, as it would be a pleasure, to visit you and consult your wishes when any matter of particular moment or local interest may arise.

Upon other points I shall have opportunities of expressing my views to you personally and should you think fit to entrust me with the responsibility which I now seek at your hands you may rely upon your interests being cared for to the best of my ability.

I have the honor to remain,
Gentlemen,
Your most obedient servant,
ALFRED THOS. ELLIOTT.

THEATRE.—The Hospital benefit last night, under the patronage of Sir James Douglas, K.C.B., was attended by a large and highly respectable audience. The performance commenced with the ever popular nautical drama of Black-eyed Susan, in which Mr. A. R. Phelps, in the immortal T. P. Cooke's character of William, and Fanny Morgan Phelps as Susan acquitted themselves in a most creditable manner, drawing forth frequent applause. Mr. Torrence represented Jacob Twig most amusingly, and the rest of the *dramatis personæ* were all well up in their parts. Little Nell was as usual *encored* in her vocal interlude. The entertainment concluded with the racy little comedy of the "Wild Irish Girl," in which Fanny Morgan Phelps was inimitable, the character being one well suited to her lively and sparkling line of acting. Her attitudes, her by play, and ready appliance of the brogue convulsed the house, and during the comic wild Irish jig between her and the Count (Mr. Marsh) the audience could not restrain their mirth and gave vent to loud peals of laughter. Mr. Reeves ably personated Helsingfor and the rest of the company, particularly Mrs. Wood and the pretty little page Jenny Arnot, were very good. To-night Boucicault's great spectacular drama of Jessie Brown or the Relief of Lucknow, in which Mrs. Phelps won so many golden opinions last year, will be repeated, with other entertainments.

THE TOMATO AS FOOD.—A good medical authority ascribes to the tomato the following very important medical qualities:—First—that the tomato is not only one of the most powerful aperients of the liver and other organs, but it is one of the most effective and least harmful medical agents known to the profession. Second—that a chemical extract will be obtained from it that will supersede the use of calomel in the cure of disease. Third—that he has successfully treated diarrhœa with this article alone. Fourth—that when used as an article of diet it is almost sovereign for dyspepsia and indigestion. Fifth—that it should be constantly used for daily food. Either cooked or raw, or in the form of catsup, it is the most healthy article now in use.

THE BOARD OF EDUCATION met on Tuesday afternoon, Dr. Powell in the chair, but did not conclude much business of importance, excepting that the Governor having signified his approval of a fresh application for a sum of $1500 for the school at Nanaimo, the Superintendent was authorised to advertise for tenders in one of the morning papers, for the selection of which lots were drawn, resulting in favor of the *Chronicle*. The question of the Educational Estimates for the year 1866 was submitted to the Board and postponed till next meeting.

A GRAND CONCERT will be given in the Victoria Theatre on Wednesday next, the 25th instant, under the patronage of His Excellency the Governor by Mons. Sandrie and Madame Lange, pupil of the *Imperial Conservatoire de Musique de Paris*. Mr. Sandrie's musical talents are too well known to need comment, and from what we have heard we believe his daughter to be a lady of great attainments; indeed the school in which Mdme. Lange received her instruction is of itself a sufficient guarantee of her proficiency in the art.

INCORRECT—Our evening contemporary states in its issue of yesterday that the man who died suddenly at Cowichan was not Hamilton but another settler named Charles Morton; we are however assured by a gentleman who was at Cowichan as recently as Sunday last that he saw and conversed with Charles Morton on that day, that Morton was in the enjoyment of good health and in no way resembled a corpse. The deceased was known by the name of Hamilton throughout the settlement.

A PARAGRAPH FOR THE LADIES—Messrs. J. H. Turner & Co., of London House, have just received by express from the European manufacturers, large additions to their stock, of the richest and most fashionable Dress Goods, Winter Mantles, Silks (the finest ever imported to this colony,) splendid Lace goods, newest and most charming styles of Bonnets—the "Fanchon" and "Empire;" irresistable Hats and Trimmings, and a variety of fascinating articles, that must be seen to be appreciated. *

FANNY MORGAN PHELPS—This deserving and pains-taking actress, whose engagement with Mr. Ward is about to terminate, will take her benefit to-morrow night, on which occasion will be presented, for the first time, the admired play of "The follies of a night," with other attractions. Mrs. Phelps' popularity, we believe, will always ensure her a good benefit in Victoria.

BRIDGE RIVER—Mr. Jameson's official report of his discoveries on Bridge river did not reach us by the Otter last evening, as anticipated. The *Columbian* promises to publish it on Saturday. We learn from Mr. Pool, the expressman, that great excitement continues in regard to these mines up the country, though in consequence of the difficulty of getting in provisions, no rush is anticipated there until the spring.

STEALING CLOTHES—On Tuesday night some person or persons entered the back premises of Captain McCulloch's residence on Chatham street and carried off the contents of a washtub containing a quantity of clothing belonging to Mrs. McCulloch.

FOR BURRARD INLET—The bark Elvira, bound to Burrard Inlet to load lumber for San Francisco, was reported in the Gulf on Tuesday.

ARRIVED.—The schooner Thorndyke arrived yesterday from San Juan with a cargo of oats for R. Brodrick.

DANCING CLASSES—Mrs. Digby Palmer will resume her winter evening Dancing Classes for Ladies and Gentlemen, on Wednesday and Saturday evenings, at 8 o'clock. The class for children will be held on Wednesday and Saturday afternoons, at half-past three o'clock, commencing next Wednesday, Oct. 4th. The school will meet at Mrs. Digby Palmer's residence, on Douglas street, corner of Fort street. Mr. Palmer presides at the pianoforte for both classes. Terms per month—Adults, $5; Juveniles, $3; Private Lessons, $8. *

THE FEMALE INFIRMARY—While that essential and most deserving institution, the Royal Hospital, is receiving substantial aid, of which it stands greatly in need, the public must bear in mind that there is yet another valuable institution, the Female Infirmary, the funds of which are in a deplorably languid condition and require the liberal support of the philanthropic and benevolent. His Excellency's family and the ladies belonging to the Committee are interesting themselves in getting up an afternoon concert to take place, we understand, at an early date at Government House in aid of the Infirmary. The idea is an excellent one, for such an entertainment beyond all doubt would prove highly attractive, the preliminaries however have not yet been definitely arranged.

DEBATING CLASS—The interesting debate on the Union of the Colonies, which has engaged this class on two previous nights, will be resumed this evening. The sense of the meeting will doubtless be taken at the close. Mr. A. Watson will re open the debate precisely at 8 o'clock.

GAZETTED.—The appointment of Joseph Needham, Esquire, Barrister at Law, to the Chief Justiceship of this Colony, in the room of David Cameron, Esquire, resigned, appears in yesterday's *Gazette*.

CARIBOO.

Good News from "Old Dominion"—Two Candidates out for Cariboo West—Bob Smith's Political Platform—Female Immigration and Free Spirits Dates to October 16th.

QUESNELLEMOUTH, October 16—Considerable excitement exists respecting the presumed impending election for Cariboo West. John Evans is out with his address in the Cariboo *Sentinel*. Robert Smith, the road contractor, is also a candidate for that riding. The latter, in a private explanation to the principal electors, declares the following to be his principles:—Abolition of road tolls; abolition of export duty on gold; modification of the customs tariff; abolition of duty on spirits; promotion of female immigration; doubt on the union question, except so far as matrimonially concerned, and then decidedly in favor.

The Cariboo *Sentinel* has issued its last number, at least for the present year.

Good reports have been received from Old Dominion Creek.

G. B. Wright's road is finished and accepted below Cameronton.

LATER EASTERN NEWS.

(From the Columbian.)

NEW YORK, Oct. 12—A Washington despatch to the *Express* says: Gen. Grant has advised the Secretary of War to discharge at least one hundred more general officers with their staffs, and has also advised mustering out nearly all the negro troops.

The Tennessee legislature to-day tabled the resolutions endorsing the policy of President Johnson as embodied in his reconstruction of the Southern States, by a vote of 35 to 29.

A *Tribune* special dated Columbus, O., Oct. 11th, says: Forty eight counties give a Union majority of 24,000, and there are 20 counties to hear from.

It is estimated that the Wirtz trial will cost the Government $100,000. Col. Moore, late Surgeon General of the rebel army has arrived and will appear before the Wirtz Military Commission. Henry Winter Davis is retained for the defence.

A special dispatch to the *Times* says a delegation from South Carolina, appointed by the unanimous vote of the late Convention to send a petition to the President for the pardon of Jeff Davis, has arrived and expect to have an audience at the Executive Mansion to-day. The delegation consists of Alfred Hager, Judge Wadlow, and M. D. Aikins, who was the second postmaster of Charleston, and continued in office until the secession of the State. A gentleman who has arrived here direct from that State represents that the canvass for United States Senator is exceeding lively, and that the prospect for Governor Perry is unfavorable. His unreserved statements that "the parish system fostered and encouraged secession" has gained for him the strong opposition of the parishes, and their citizens will unitedly oppose him for Senator.

NEW YORK, Oct. 13—The *Herald* says a number of detectives from London arrived on last steamer to this city with special instructions. It is understood they are to keep an eye on the Fenians, and inform the British Government from time to time of whatever facts may come to their knowledge in regard to them. One or more of these detectives it is said, left for Chicago, where it is believed the Fenians are organizing in greater strength than anywhere else, excepting New York and vicinity.

A special to the *Post* says the memorial from the South Carolina Convention for the pardon of Davis, Trenholm and Magrath has been presented to the President. He will give his reply this evening.

Marshal Goodloe, just from North Carolina, says two thirds of the reports of cruelty to colored people in that State are false.

Advices from Richmond say it is feared two of the Congressmen elected will not take the oath.

BELFAST, ME., Oct. 13—A fire occurred here last night which nearly consumed 20 buildings in that portion of the city lying below Washington and Crow streets. Many buildings were destroyed—loss about $30,000. The fire was caused by an incendiary.

PROVIDENCE, R. I., Oct. 13—The Randall Mill, in Johnston, for manufacturing shoes, was burned yesterday.

CALIFORNIA.

SAN FRANCISCO, October 13—Gold, in New York on the 10th and 11th, was 145. Sterling 10¾.

The steamer Goliath has been sent to Rio Vista to tow the Yosemite to San Francisco.

A. P. Johnson, a photographer, was arrested to-day for photographing and selling obscene and lewd pictures of women of the town, taken in a state of nudity and in the most disgusting positions. A large number of negatives were seized.

Another earthquake was felt in this city last Monday, at a quarter before 1 o'clock. A telegram from Santa Clara announces that it was also felt there, and was as heavy as the one on Sunday morning.

Collector James has ordered that all masters of vessels arriving at this port shall show to the Custom House boarding officer the original manifest of his cargo, and deliver to him a copy of the same.

The funeral of Major Eddy, one of the victims of the Brother Jonathan wreck, will take place to-morrow.

The Wolf Tone Guards have subscribed $312 additional to the Irish fund. General McDowell has issued a general order to the officers commanding the Districts of Arizona and Southern California to suffer no armed parties or munitions of war to pass over the frontier into Mexico.

A private letter received in San Francisco by the steamer Oregon contains news to the effect that the city of Mexico was inundated about the beginning of September, consequent upon the breaking of the canal aqueduct leading into the city by excessive rains. The loss is estimated at $20,000,000, the loss in one street alone reaching $6,000,000.

Sailed—brig Hugh Barclay, Puget Sound.

SAN FRANCISCO, October 14—The wreck of the Yosemite has been towed down to this city, and is now lying at the Potrero. The cause of the explosion is a mystery. The evidence before the coroner at Rio Vista yesterday was abundant and positive, and to the effect that there was no lack of water in the boiler. The gauge cocks had been tried less than two minutes before the explosion and showed four full cocks of water in the boiler, which would leave from 25 to 30 inches above the flue. The only reason for the explosion that the engineer is able to give, is that there was some concealed defect in the iron which could not be discovered by an examination of the boiler. Of one thing both the engineer and other officers of the boat are satisfied, and that is the unsoundness of the theory that boiler explosions are always owing to a lack of water; for there can be no doubt that there was an abundance of water in the boiler of the Yosemite when it exploded. The theory advanced in the report sent from Sacramento yesterday that the explosion was caused by the careening of the boat which threw the water too much on one side of the boiler, is scouted as absurd by the officers, who, like the engineer, can only account for the catastrophe on the supposition that there was some hidden imperfection in the boiler.

Sailed—on the 14th, steamer Orizaba for Portland.

SAN FRANCISCO, October 16—The Democrats meet to-night at Platt's Hall for the purpose of ratifying the nominations made by the party of candidates for the coming election of Judicial officers. M. Antoine Foster, late acting French Consul at this port, has been appointed Consul of France at Mazatlan. According to the figuring of the clerk of the Yosemite, there were on board the steamer at the time of the explosion 108 cabin passengers and 45 steerage passengers, making 153 in all; the officers and crew of the boat numbered 65. Companies A and B, 8th Infantry California Volunteers, and two companies of the 9th Infantry regulars, arrived here in the Sierra Nevada yesterday, and are now at the Presidio. Coin drafts in Atlantic cities are quoted at 3-4ths per cent. premium, and currency drafts 3-8ths per cent. premium in gold. Latest gold quotations 144¾ in New York on the 13th inst. Legal tenders 72 @ 72½.

Arrived yesterday—steamer Sierra Nevada, from Portland. Sailed—October 16th, bark Vidette, Merritt, Puget Sound.

FROM EUROPE.

The *Tribune's* Paris letter of September 19 says the most important news of the week is the confirmation by the *Moniteur* of the statement made the day before yesterday by the London *Morning Post*, that the French troops would evacuate Rome by the time fixed in the Convention of September 15, and that some regiments would be gradually withdrawn to Civita Vecchia some time beforehand.

Private information states that the conversion of Monaco will soon be effected on terms considered very favorable for the old landholders.

The cholera at Toulon is reported to be worse.

CANADA.

The *Herald's* special despatch says information has been received at Washington that six hundred Spencer rifles in boxes were seized by the Canadian authorities at Niagara city yesterday. The contents of the boxes were accidentally discovered in overhauling railroad freight. The authorities report it as a case of Fenian smuggling. It is well known that combinations exist in several of the principal cities of the country for the purchase of arms from discharged soldiers, many of whom on leaving the service avail themselves of the privilege of purchasing their guns at a greatly reduced price.

Special Dispatch to the "Colonist."

SAN FRANCISCO, Oct. 17—The Democratic Mass Meeting last evening was largely attended. Speeches were made by Shaw, Harelly, Barber, Hill, Coffroth, and Dr. Rowell, the lately defeated candidate for the office of Mayor on the regular Union ticket. The banks and many prominent business houses will be closed to-morrow in order to give all the employees a chance to work at the polls.

Between nine and ten o'clock last night two diabolical wretches were seen laying a plank across the track of the Mission Railroad between Seventh and Eighth streets, evidently designing to throw the nine o'clock train from the track. Fortunately their rascality was detected by a man who stopped the train and prevented a catastrophe.

The funeral of General and Mrs. Wright will take place on Friday. The remains will be taken to Sacramento for interment. We understand another body, that of a Chinaman, was found in the debris in the hold of the ill fated steamer Yosemite.

The funeral of the two members of the San Francisco Musical Society, J. F. Wasberg and P. T. Minot, this a.m., was a most impressive spectacle.

The dead march was played by a band comprising 69 performers, and the procession included a long line of carriages filled with the friends of the deceased.

The work on the Pacific end of the United States and Pacific Telegraph Company's line is progressing rapidly. The poles will be up in the section from Placerville to Virginia City, and will be finished by November 1st, and that from this city to Placerville by the 1st of November. The wire will be here some time next month. It is expected that they will be in communication with Virginia City by the middle of January.

The following private despatch was received in this city on Monday:

PHILADELPHIA, 13th October.—To O. C. Wheeler: You are elected General Agent of the Freedmen's Commission for the Pacific coast. Organize the whole territory at once, and report to me at Washington. (Signed), Jacob R. Shepherd.

A large number of passengers are booked per steamer Golden Age, which sails to-morrow.

SAN FRANCISCO, Oct. 16—The *Spirit of the Times* publishes a telegram to the effect that Flora Temple's celebrated time of 2:19¾ was beaten in New York on the 10th inst., by the Hambletonian horse Dexter, who has made quite a stir during the last two years by his remarkable speed. Dexter made on this occasion the mile in 2:18 1-5, beating Flora Temple's time by 01 1-20. The race was trotted on a wager of $5,000 against $10,000 that Dexter would beat the best time on record.

The same paper says the owner of Norfolk will run him against any horse on the Pacific Coast, at four mile heats, with 126 pounds on each for $15,000 a side, on any day except Sunday, in May next.

HOLLOWAY'S OINTMENT AND PILLS are an infallable remedy for bad legs, and all kinds of wounds. The surprising sale of these invaluable medicines, in every part of the civilized world, is the most convincing proof of their efficacy. They speedily cure bad legs, old wounds, scrofula, and diseases of the skin. Thousands of persons suffering from these dreadful maladies have been cured by these medicaments, after every other means had failed; and it is a fact, beyond all doubt, that here is no case, however obstinate, or however long standing, but may be quickly relieved, and ultimately cured, by these wonderful medicines. Their united action is irresistible. More need not be said in their praise. Let those who doubt their excellence give them a call.

BRITISH COLUMBIA.

The steamer Otter arrived last evening from New Westminster with 60 passengers and a large amount of treasure, $100,000 being for the Bank of British Columbia.

(From the Columbian.)

THE STMR. ONWARD, Captain Irving, arrived from Yale on Monday evening, bringing 50 passengers, amongst whom were the Hon. A. N. Birch, Admiral Denman and Mrs. Denman, Hon. J. W. Trutch and others. Mr. Malcolm Munro, contractor for the Cottonwood road, came down. We regret to learn that Mr. Munro has lost by the contract and is unable to finish the road, owing to extremely unfavorable weather. We believe the Government will at once complete the road under the management of Mr. Spence.

CUSTOMS RECEIPTS for the week ending Saturday, October 14th, 1865:—Duties (import), £1,179 10s 10d; do. (export), £569 0s 4d; harbor dues, £10 5s 6d; head money, £16 4s; tonnage dues, £98 6s 10d. Total, £1,873 7s 6d. Number of passengers entering at this port during the same period, 11.

Later from Big Bend.

The news which is reaching us from the Big Bend country continues to be of the most encouraging character. Our dates from the head of Shuswap Lake are to the 12th inst.

Mr. Smith had returned from the mines.—Smith and Ladner's train had also arrived, having delivered the provisions at the Columbia river which were cached over the snow some time ago. The arrival of the train with provisions, and the assurance of Smith and Ladner that every effort would be made to keep them supplied through the winter, caused many miners who were on their way out to return to their claims with the intention of working them all winter.

Smith & Ladner's train started out from the head of Shuswap Lake on the 10th with another cargo of provisions, *via* the Government trail, which was cut through to the Columbia River, but was being improved in some places. In addition to keeping their train at work S. & L. are employing all the Indians they can get in packing over the new trail in order to keep the miners supplied. A train of 20 Indians started out on the 11th with packs, varying from 60 to 100 pounds each. Mr. Romano's mule train was on the way from Yale to Shuswap Lake, where they were expected to arrive on the 14th. The weather, since the change a few weeks ago, had been delightful, so much so that on his way down Mr. Ladner purchased a drove of beef cattle on the Bonaparte, and started them off for the mines, where they would probably arrive about the 22nd inst.

Excellent prospects had been struck on the bars of the Columbia River, above and below Death Rapids, and in the vicinity of the terminus of the new trail, upon which a number of miners were commencing to work. A new gold bearing creek had been discovered, emptying into Gold Creek three or four miles south of McCulloch's Creek. Two men, representing the Discovery company, had started out from Shuswap Lake with packs of provisions, and it was understood from them that the new creek prospected very rich. On French Creek mining was actively going on, with the most satisfactory results, several of the claims yielding enormously; so much so, in fact, that we prefer not giving figures just now. Altogether the most unbounded confidence is felt in these mines. Perhaps no better proof of that confidence could be adduced than the simple fact of such men as Messrs. Smith & Ladner and Mr. Romano devoting so much energy and capital to the work of rushing in supplies.

CRICKET MATCH AT NEW WESTMINSTER.

The match between the New Westminster players and eleven of H.M.S. Sutlej, now lying at Burrard Inlet, came off at New Westminster on Monday, and resulted as will be seen from the subjoined score, which has been kindly sent to us, in an easy victory to the former. The bowling and fielding of both elevens was very creditable. Pooley for New Westminster did wonders, while Macaulay's shooters and Levitt's left handers bothered the "Stump town" team considerably. The batting of Messrs. Howlett, Pooley, W. Fisher, and Berkely for New Westminster was deserving of all praise, and on the side of the Navy Messrs. Card, Levitt, Macaulay and Donner gave the field constant employment:

HARD TIMES VS. HIGH RENTS.

TO THE EDITOR OF THE BRITISH COLONIST—SIR: Permit me through the medium of your widely circulated journal to direct the attention of lessors of property to the suicidal policy being pursued in these hard times by many of their number. It is well known that business is almost at a standstill, yet many landlords who have the power of coercing their tenants will not hear of any reduction. Like true Shylocks they'll have their bonds, and prefer to see their tenants gradually decline and finally collapse and their property become valueless by an exodus of the population, than to reduce to a reasonable standard the present exorbitant rents. Would it not be better that these landlords should at once do something to meet the times than that the present occupiers of their houses and stores should give up their occupations and quit the colony while they have the means?

Hoping that this letter may also attract the attention of some of the oppressed, and that steps may be taken to lessen the evil,

I am, sir,
Your ob'dt servant,
FAIR PLAY.

HOLLOWAY'S PILLS are undeniably the finest medicine in the world for biliousness and indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver, and stomach complaints, there is no medicine known that will give immediate relief as these renowned Pills; young and old, rich and poor, patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm climates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

HOLLOWAY'S PILLS—Liver Complaints.—The virtue of these incomparable Pills are fully appreciated in every part of the civilized world. As they act on the general system through the circulation, there are few diseases which they cannot cure; but they are especially efficacious in all the disorders of the liver. For those they are an indubitable specific. They possess unrivalled potency for good, while they cannot do harm. A child might physic itself with these Pills, and without the slightest danger, except from such excess as would make the most wholesome ailment in the world an evil. By reducing the superfluous bile, regulating its due secretion, and giving tone to the stomach, they effect a permanent and perfect cure.

TO THE ELECTORS OF ESQUIMALT AND METCHOSIN DISTRICTS.

GENTLEMEN:—A vacancy having occurred in the Representation of your District, I humbly offer myself as a candidate for your suffrages to fill the office.

It is customary and proper that a candidate should lay before the electors his views on the questions of the day. I would here briefly express my opinions on some of them, and when calling on you shall be glad to afford any further information or explanation.

With reference to the Union of this Colony with British Columbia, the Legislative Assembly have already agreed on and sent home resolutions declaring Vancouver Island to be desirous of Union under any Constitution which to her Majesty might appear advisable, renders it probable that Union will shortly occur—thus leaving little to be said, save that it is of the utmost importance that the question should be definitely settled as soon as possible, and the Colony relieved from its present suspense, so injurious and so obstructive to progress.

Meanwhile I believe it to be necessary that the policy of Free Trade should be faithfully maintained, for in our present expectant condition it is at least prudent to make as few changes as possible. If Union should take place, a general election must ensue. The Legislature of the united Colonies will then have to decide on the policy most likely to be advantageous to the country at large.

Reciprocity of Trade with our friends and neighbours of the United States of America would I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony included in any treaty concluded between the authorities of the United States and the British North American Provinces.

Imprisonment for Debt should be forthwith abolished except in cases of fraud.

Immigration is highly necessary to our prosperity, and I would do all in my power to carry out any justifiable plan for the settlement of the public lands. The construction of good roads is an obvious duty. I believe something ought to be done to encourage the extermination of beasts of prey in partially settled districts like yours.

A Reform of the Constitution is necessary in order that the Legislative bodies may be rendered independent of Executive control.

The Official Expenditure of the Colony must be materially reduced, and by this means the diminution of Taxation, so absolutely necessary, brought about. Whilst in favour of Direct Taxation, it is advisable that our Revenue should be drawn from a wider area.

Should you deem me worthy of being your Representative, it will be my constant endeavour to promote your special interests.

I am, Gentlemen,
Your obedient Servant,
JOHN ASH.

HOLLOWAY'S PILLS

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and subduing suspended secretions. Universally adopted as the one grand remedy for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing, and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers cleanse the blood from all impurities and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of diseases re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

Billiousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague
Asthma
Bilious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas

TO THE ELECTORS OF ESQUIMALT AND METCHOSIN DISTRICTS.

GENTLEMEN:—A vacancy having occurred in the Representation of your District, I humbly offer myself as a candidate for your suffrages to fill the office.

It is customary and proper that a candidate should lay before the electors his views on the questions of the day. I would here briefly express my opinions on some of them, and when calling on you shall be glad to afford any further information or explanation.

With reference to the Union of this Colony with British Columbia, the Legislative Assembly have already agreed on and sent home resolutions declaring Vancouver Island to be desirous of Union under any Constitution which to her Majesty might appear advisable, renders it probable that Union will shortly occur—thus leaving little to be said, save that it is of the utmost importance that the question should be definitely settled as soon as possible, and the Colony relieved from its present suspense, so injurious and so obstructive to progress.

Meanwhile I believe it to be necessary that the policy of Free Trade should be faithfully maintained, for in our present expectant condition it is at least prudent to make as few changes as possible. If Union should take place, a general election must ensue. The Legislature of the united Colonies will then have to decide on the policy most likely to be advantageous to the country at large.

Reciprocity of Trade with our friends and neighbours of the United States of America would I believe, be of the greatest mutual benefit, and every effort should be made to have this Colony included in any treaty concluded between the authorities of the United States and the British North American Provinces.

Imprisonment for Debt should be forthwith abolished except in cases of fraud.

Immigration is highly necessary to our prosperity, and I would do all in my power to carry out any justifiable plan for the settlement of the public lands. The construction of good roads is an obvious duty. I believe something ought to be done to encourage the extermination of beasts of prey in partially settled districts like yours.

A Reform of the Constitution is necessary in order that the Legislative bodies may be rendered independent of Executive control.

The Official Expenditure of the Colony must be materially reduced, and by this means the diminution of Taxation, so absolutely necessary, brought about. Whilst in favour of Direct Taxation, it is advisable that our Revenue should be drawn from a wider area.

Should you deem me worthy of being your Representative, it will be my constant endeavour to promote your special interests.

I am, Gentlemen,
Your obedient Servant,
JOHN ASH.

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News* November 8th, 1862

Proves its superiority to all other Medicines at once.

ITS FIRST INDICATION

Is to relieve the sufferer of PAIN, no matter from what cause it may originate, or where it may be seated.

If in the Head, Face, or Throat;
If in the Back, Spine, or Shoulder;
If in the Arms, Breast, or Side;
If in the Joints, Limbs, or Muscles;
If in the Nerves, Teeth, or Ears;

Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.

IF SEIZED WITH PAIN

In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;

One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.

If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun Stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF

should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.

Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonfuls of the Ready Relief, in a wineglass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH

CHOLERA, or Diarrhœa, or Flux,
Dysentery, Cramps, and Spasms;
Bilious Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF

SHOULD BE TAKEN INTERNALLY.

One dose will stop the pain; its continued use will, in a few hours, cure the patient.

HOW IT CURES.

The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. So swift is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTHACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS ENLARGED TENDONS, HEADACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.

It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

LONDON TIMES.

Twenty Years of Sleepless Nights.

Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty-five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.

THERE IS NO OCCASION FOR SICKNESS.

When you first feel pain, then take a teaspoonful of the READY RELIEF, in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES

first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.

Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills, and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

IN THE ARMY.

Dysentery, Bilious Cholic, Flux, Yellow, Typhoid and Malarius Fever, Rheumatism, Small Pox, Diptheria, Letters from Medical Directors, Surgeons, and Military Officers endorse the importance of RADWAY'S READY RELIEF over all other medicinal remedies.

EIGHTH MAINE.

Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.

In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country storekeepers.

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortures the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any sore, whatever its character. It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applicaions of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

If afflicted with either of the above named diseases, "one to six" boxes of Dr. Radway's Pills will cure you. By taking a few doses of the common Drastic Pills—that gripe and pinch you when they operate—you may obtain temporary relief; but if you stop taking these imperfect pills for a week or a month, your old complaint returns. Now, this is not the method of cure indicated by Dr. Radway's Pills. They make a perfect cure, and the patient will not require any more medicine.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of Inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.

THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with Piles, may rely on a positive cure by their use.

HOLLOWAY'S OINTMENT AND PILLS.—The family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, eruptions, sores, wounds, ulcers, tumours, &c, are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, the cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

HOLLOWAY'S PILLS.—No family should be without these pills.—Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engorged spleen, clense the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infallibly correct female complaints in young and old, delicate and robust.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.
